With global threat levels involving terrorism, extreme weather and civil wars rising, we have seen a dramatic shift in the corporate travel risk landscape over the past couple of years. Companies are now preparing for scenarios such as bomb threats in European hotels which not so long ago barely featured on the radar.

Yet understanding the real risks and your travellers’ exposure to them can sometimes be confusing when the media has an impact on your travellers’ fear and anxiety, pushing the threat of terrorism as a traveller concern to the forefront of our minds.

The concept of duty of care as it relates to travel risk management is a widely used term and many organisations now have all encompassing travel risk management programmes to ensure the safety and well-being of their staff.

So what happens when your travellers start to tune-out of your policies?

Will the use of sharing economy providers start to break down the structures companies have in place to comply with duty of care?

How will the Millennial mindset impact on travel polices as Millennials start to take on more senior roles within organisations?

Is your security and first aid training fit for purpose?

When did you last audit your travel risk management programme?

Delegates attending this conference can receive 23 structured learning points towards the annual Continuing Professional Development scheme administered by the Security Institute. See www.security-institute.org for further details of this scheme which is open to everyone. No membership required.

About the Conference

Who should attend?

Anyone responsible for the security, health & safety and wellbeing of employees, contractors, sub-contractors, volunteers and students while they are overseas will find the event especially useful as will those professionals with an interest in duty of care and limiting employee or student exposure to risk, particularly those involved in the areas of;

- Corporate & physical security professionals
- C Suite and Senior HR executives
- Health & safety
- Corporate travel managers and buyers
- Risk management & insurance
- Assistance & rescue
- Legal (inhouse & private practice)
- Business Continuity
- Global Mobility Professionals
- Operational security & intelligence
- Project advisers

Duty of care is not an ethical concern but a legal obligation which is embedded in workers compensation laws in the UK and can extend as far as the dependents of international assignees.

When employees work across borders, duty of care involves risk management beyond the usual health and safety requirements of a familiar environment. As workforces become more mobile, fulfilling duty of care can seem like a daunting task for employers which is made more challenging by the inconsistent levels of adoption around the globe. The balance between having robust processes in place to protect staff overseas and conducting business in an efficient and profitable manner can sometimes be difficult.

Slow growth in Western economies combined with the Brexit vote is fuelling an interest in exploring new markets outside of historic territories. Yet maximising the cost effectiveness of business trips can involve multiple stops and last minute adjustments which result in highly complex travel itineraries. For SME’s who may not have the manpower or budget to create an all encompassing travel risk management programme, how can they ensure they have a robust crisis management plan in place to protect their employees and reputation?

New for 2017

If your company is looking to explore new markets overseas or you simply want to hear the latest security, health and cultural advice from a range of experts, roundtable sessions will provide a unique opportunity to ask your questions and pick the brains of experts and peers who are active in these areas.

By protecting your employees, your most valuable asset, you are protecting your business, financial and reputational risks.

Session Four – Roundtables or Crisis Management Workshop

16.05 ROUNDTABLES - Many of the round tables will focus on specific geographical areas, giving delegates the opportunity to hear more tailored guidance on some of the areas they may travel to, in terms of security, health and cultural considerations which could impact their travellers or expats. For organisations who are setting up a travel risk management for the first time or simply want to revisit their policies, there will be sessions for companies who wish to have a better understanding of the principle laws surrounding duty of care or how to build/update a travel risk management programme.

NEW - We will also be hosting for the first time a crisis management workshop, based on real-life medical and security scenarios. This workshop will only take place on day 1, so make sure you register your interest to avoid disappointment.

All sessions will take place simultaneously, will each last for one hour and are designed to encourage discussion in smaller groups. The round table discussion groups will be repeated on the second day of the conference, offering delegates the opportunity to explore two of the topics indepth with key experts in each field.
